4. Screens & Display Solutions

URL: /solutions/screens-display/

SEO title: Screens & Display Solutions in Sharm El Sheikh

Meta description: Tailored shutter and display-area solutions for commercial properties in Sharm El Sheikh. Free inspection and measurements.

Hero

H1: Screens & Display Solutions Designed Around Your Space

Create a clean, practical solution for display areas and commercial openings while balancing visibility, access and protection.

The right solution starts on site

Display and screen requirements differ by property. The team assesses the opening, how it is used, desired visibility, operating frequency and surrounding finish before recommending a system.

Suitable for

- Retail display areas
- Commercial screens and openings
- Customer-facing interior or exterior zones
- Access points requiring a neat closure
- Custom applications assessed on site

Note: Confirm the exact product range shown in the client's "Screens & Display Solutions" folder before adding detailed specifications.

Process

Site inspection · Measurements · Recommended configuration · Quotation · Installation · Testing

5. Apartments & Residential Units

URL: /solutions/apartments-residential/

SEO title: Apartment Shutters in Sharm El Sheikh | Sharm Shutters

Meta description: Made-to-measure roller shutters and shading solutions for apartments and residential units in Sharm El Sheikh.

Hero

H1: More Comfort and Privacy at Home

Tailored shutter and shading solutions help residents manage strong sunlight, privacy and daily comfort without compromising the appearance of the property.

Designed for everyday living

Whether the property is a permanent home, holiday apartment or rental unit, the solution should be easy to use and suited to the opening. Sharm Shutters measures on site and helps you choose a practical configuration.

Common goals

- Reduce direct sunlight and glare
- Increase privacy
- Improve comfort in bedrooms and living areas
- Add protection to windows, balconies or doors
- Choose convenient motorized operation where suitable
- Replace or service an existing electric shutter

Suitable areas

Bedrooms · Living rooms · Balconies · Kitchens · Entrances · Rental units

6. Commercial Stores

URL: /solutions/commercial-stores/

SEO title: Commercial Store Shutters in Sharm El Sheikh

Meta description: Professional roller-shutter solutions for shops and commercial stores in Sharm El Sheikh. Free site inspection and quotation.

Hero

H1: Professional Shutter Solutions for Commercial Stores

Plan a practical storefront solution around daily access, security, visibility and a finish that suits your business.

Built around daily operation

A commercial shutter must work reliably and fit the way the property opens and closes each day. The team inspects the frontage, usage, available space and power requirements before recommending a suitable manual or motorized configuration [CONFIRM exact options].

Suitable for

- Retail stores
- Shopping-mall units
- Restaurants and cafés [CONFIRM]
- Offices and service businesses
- Storage and back-of-house openings

Local project experience

Publicly featured commercial work includes projects at Soho Square, Thor in Naama Bay and El Fayed in Hadaba.

Meta description: Tailored shutter, awning and shading solutions for hotels and resorts in Sharm El Sheikh.

Hero

H1: Shutter and Shading Solutions for Hospitality Properties

Support guest comfort, operational needs and the appearance of your property with solutions planned around hospitality environments.

Coordinated for hospitality operations

Hotel and resort projects may involve different areas, schedules and stakeholders. Sharm Shutters assesses each opening, recommends an appropriate solution and coordinates installation around the agreed site requirements.

Potential applications

- Guest rooms and residential-style units
- Balconies and terraces
- Retail and service outlets within the property
- Storage and operational areas
- Entrances and commercial openings
- Outdoor awnings and shading [CONFIRM exact systems]

For project and operations teams

Share drawings, opening schedules or site photos where available. A physical inspection is used to confirm measurements, access, power and finishing requirements.

8. Villas

URL: /solutions/villas/

SEO title: Villa Shutters & Awnings in Sharm El Sheikh

Meta description: Custom roller shutters, awnings and shading solutions for villas in Sharm El Sheikh. Book free measurements.

Hero

H1: Tailored Shutters and Shading for Your Villa

Improve privacy, shade, outdoor comfort and access with made-to-measure solutions planned around your villa's architecture and daily use.

One property, several needs

A villa may require different solutions across windows, doors, balconies, terraces and outdoor spaces. The team surveys the property and helps coordinate a consistent finish and suitable operation for each area.

Villa applications

- Bedroom and living-area openings
- Patio and balcony doors
- Large windows
- Entrances and service areas

- Terraces and outdoor seating
- Awnings and shading for sun-exposed areas

Manual or motorized

Ask the team to recommend an operating method based on opening size, frequency of use, access and available electrical preparation. Exact motors, controls and smart features require confirmation.

9. FAQs

URL: /faqs/

SEO title: Shutter Installation FAQs | Sharm Shutters

Meta description: Answers about measurements, installation, motorized shutters, maintenance and quotes in Sharm El Sheikh.

Do you offer free inspection and measurements?

Yes. Sharm Shutters publicly offers free inspection and measurements inside Sharm El Sheikh. Contact the team to arrange availability.

Which types of properties do you work with?

Solutions are available for apartments and residential units, villas, commercial stores, hotels and resorts, plus screens and display applications assessed on site.

What products do you offer?

The verified public range includes roller shutters, awnings and shading solutions. Available materials, finishes, motors and any additional blind products should be confirmed during consultation.

Do I need exact measurements before contacting you?

No. Photos and approximate dimensions help with the first discussion, but the team should confirm final measurements before production or installation.

Do you offer motorized shutters?

Electric roller-shutter work is publicly referenced. Available motors and control methods depend on the project and should be confirmed after assessment.

Do you repair existing electric roller shutters?

Yes. Sharm Shutters publicly offers maintenance, repair and deep cleaning for electric roller shutters. Send photos or a video of the issue to arrange an inspection.

How long does installation take?

Timing depends on the system, number of openings, preparation and site conditions. The expected schedule should be included with the approved quotation.

Do you provide a warranty?

Warranty coverage depends on the installed product and components. Ask for the applicable written terms with your quotation. [CONFIRM warranty policy before publishing.]

Which areas do you cover?

The verified service area is Sharm El Sheikh. Contact the team to confirm availability outside the city.

Can I visit the showroom?

Yes. The publicly listed showroom is at Jasmine Mall, Nabq Bay, Sharm El Sheikh. Confirm opening hours before visiting.

What should I send on WhatsApp?

Send your name, location, property type, photos or a short video, approximate dimensions if available and what you want the solution to achieve.
